NOTE: This ltr rewritten to
address it to Gen. Thomas D.
White, Chief of Staff, USAF.

Brigadier General Norman L. Peterson, USAF
Commander
Air Weather Service
Scott Air Force Base, Illinois

Dear General Peterson:

I have taken particular note of the extent to which the Weather Central at Offutt Air Force Base has provided support to Agency air activities. I realize that support of this magnitude represents a significant segment of the workload for the Weather Central and wish to assure you that without this support the effectiveness of our operations would have been seriously impaired.

In my experience and in the experience of my officers in more direct contact, the quality of the service has been nothing short of outstanding. Without the sincere cooperation and highly effective performance of duty of your three officers assigned to us here in Washington, as well as those who are working on our business at the Weather Central and in your Headquarters, I am sure our record of accomplishment would not have been possible.

Sincerely,

C. P. Cabell
General, USAF
Deputy Director
